FlashTips®

Disposable Air/Water Syringe Tips

Unlike other leading brands, our inner tube doesn't shift under pressure!

Buy 4 bags of 250, Get 1 **FREE!****

FlashTips help prevent cross contamination in seconds!

- Quick and easy changeover – no converters needed on most syringes
- Locking indicator that assures tip is in place
- Built strong for cheek retraction
- 5 great colours in each pack!

REF #	DESCRIPTION	PRICE	NET
664-8463	FlashTips – 250 pack	\$55.85	\$44.68
664-8471	FlashTips – 1200 pack	\$264.00	

What's inside your metal syringe tip?

We took tips that were in use in an office in Charlotte, NC. They were taken to a dental lab and cut in half. In the outer tubes the brass becomes discolored and begins to corrode. The inner tube (not pictured) also corrodes. Is this what you want to subject your patients to?

Powder-free Nitrile

These textured powder-free nitrile examination gloves provide the ultimate solution for healthcare professionals and patients who are at risk of becoming sensitive to natural rubber latex. Our nitrile gloves are designed with the strength, fit and tactile sensitivity of natural rubber latex without the protein allergens. These gloves passed the ASTM test requirements for viral resistance. The glove has a rolled cuff.
